

Safe & Smart Living
in your pocket

Your home keeps you Happy.

Your business keeps you Moving.

But what if they care about your security?

What if you have remote access control?

And what if you know your visitors from far away?

Imagine if it could know you.

If it could make your life peaceful, better, and comfortable.

Tell you and your friends and even security agencies if there's trouble.

This is the kind of living
we're creating.

The Safe & Smart Living.

Iylus Smart Self-Monitoring Convenience in your pocket

You can monitor your home or business even when you are not there.

Through the Iylus app you always have access to all your Iylus smart devices from anywhere and anytime. You can get notified for all events that occur in your home or business.

Benefits:

-  One-touch arming and disarming of your system
-  Receive immediate alerts for events you decide
-  Watch your live video feeds on your phone anywhere anytime
-  Control your system and devices remotely from the smart app
-  Smart security on your own terms
-  Add as many authorized users with the same or limited access

Iylus Professional Monitoring Services

Comfort in your pocket

In case of any incident or emergency Iylus 24/7 Professional Monitoring Services is always awake round the clock and will provide all necessary support including moral support and informing your emergency contacts & relevant security agencies.

Benefits:

-  Protect and monitor your home and business with full comfort
-  24/7 monitoring of your alarms and incidents even while you are asleep
-  Receive help faster than you could act on your own
-  In case of any theft or medical emergency, get instant help from professionals
-  Ability to inform multiple emergency contacts when you are not available
-  Alarm verification by trained professionals

Your Personal Responders Response in your pocket

Your Personal Responders can respond to any incident in your home or office.

You can add and designate your closest friends or family or any security guards as your Personal Responders to respond in case of any incident or emergency.

Benefits:

-  Protect your home and business with your family and friends
-  More help is better than less help in case of any incident or emergency
-  Your family and friends are your best responders in case of any emergency
-  Closest friend or family member is most likely to respond faster than you
-  Your family and friends can get additional help in case of any emergency
-  Key to happiness is having close family and friends
